DIRECTIONS

SHAKE WELL BEFORE USING

- **DILUTION** Mix 4 tablespoons (2 oz.) per one gallon of water.
- **POTTED & INDOOR PLANTS** For best results, irrigate regularly and mist foliage between watering.
- **OUTDOOR PLANTS & TREES** Spray at pre-bloom, full-bloom and early fruit set. Apply to soil every 3 to 6 weeks.
- **TRANSPLANTS OR NEW PLANTS** Soak soil around root zone and spray roots at transplanting.
- **LAWNS** Spray once a month during growing season.
- **VEGETABLES & BERRY PLANTS** Irrigate one week before planting, soak soil at planting and once a month while growing. Mist foliage between watering.
